### ***New Crowdfunding Project Mayday!Mayday!***

#### **19.04.2013. Cwali presents new crowdfunding project: cardgame Mayday!Mayday!**

After Leelawadee was very successful, Cwali wants to present another new crowdfunding project: Mayday!Mayday! In the game all players are flight crew members. During flight KL-886 the pilot suddenly died under mysterious circumstances. Did he get poisoned? Murdered? Or was it just a heart attack?

However, the copilot must now take the lead but the other members of the crew do not trust him. Surely infiltrators are among the crew. But who could it be? Only the infiltrators know each other, all the others are clueless at the start. One of the players will become the new captain during the game and he must try to create a new crew to land the plane. But he must make sure that no infiltrator enters the cockpit.

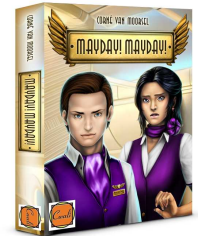

#### ***Available worldwide***

The Game contains only a little text that will be multilingual. The rules and the cards with text will be in English, German, French and Dutch.

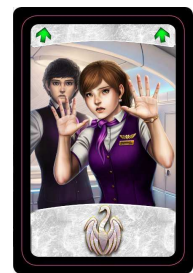

Cwali wants to introduce Mayday!Mayday! in Essen at the SPIEL fair. Until then it should be ready. So the aim is to deliver the game in October. The shipping is done by Spiele-Offensive.de. Shipping within Germany is free, to all other countries in EU it is 6€ and international it is 12€.

#### ***The project can be backed on the crowdfunding platform [Spieleschmiede](http://Spieleschmiede).***
